

Date	Presenter	pptx or pdf available	Title
19 th July 2018	Gill Scott	Y	Cracking a Brasil Nut - Simple Overview of Santos Pre-Salt Geology and Example of a Development
21 st June 2018	Maurice Bamford	N	Pilot: an undeveloped UKNS offshore heavy oil field waiting for steam flooding
17 th May 2018	Karen Higgs	partial	Reservoirs of Taranaki Basin, New Zealand: from source to sink
19 th April 2018	Gerome Calves	Y	“Unseen” landscape of the Peruvian margin, a geological and oceanographic view
15 th Mar 2018	Chris Wynn	partial	Oudna field development - offshore Tunisia- “Simple is Beautiful”
15 th Feb 2018	Jim Henderson	N	Modern Seismic imaging of Zechstein deposits fringing the Mid North Sea High
18 th Jan 2018	Peter Wigley	Y	William Smith, his maps and other endeavours from a digital perspective
14 th Dec 2017	Stephen Cribb	Y	To Burton and Beyond - a review of the impact of underlying geology on beer making
16 th Nov 2017	Prof Dick Selley Imperial College	Y	The future of British Wine in Rosé
16 th Oct 2017	Michail Shaladybin - Tomsk Petroleum Inst.		Unusual clay formations from Western Siberia
21 st Sep 2017	Barrie Wells - Petrog	Y	Any sufficiently advanced technology is indistinguishable from magic !
17 th Aug 2017	Field Trip to Conwy Town		
20 th Jul 2017	Prof Alan Butcher - GTK Finland	Y	What is the value of mapping the world one micron at a time ?
15 th Jun 2017	Sam Girling	N	Maximising information from old variable quality seismic data for shallow acreage in the Adriatic
	James McIlroy	Y	Pre well risk assessment analysis processes for a hazardous well in the Middle East
	Field Trip /No mtg /no data		
20 th Apr 2017	Alex Finlay - Chemostrat	N	The use of chemostratigraphy and provenance studies to provide an integrated geological interpretation of the volcanoclastic and igneous intrusive sediments of the UK Atlantic margin.
16 th Mar 2017	Richard Morgan - Rockflow Resources	Y	Petroleum Geoscience in 2017: a contrarian’s view
	Field Trip /No mtg /no data		
19 th Jan 2017	Steve Corfield - Corfield Geoscience	Y	The Mid North Sea High Project for the OGA
15 th Dec 2016	Tim Needham - Needham Geosciences	Y	Reservoir Scale Deformation and Advances in Fault Seal Analysis
17 th Nov 2016	Dr Ruth Siddall - UCL	Y	Rocks and Stones: Geology in the built environment
20 th Oct 2016	Dr Graham Potts University of Liverpool	Y	A new, non-statistical direction for quantitative Stratigraphy
15 th Sept 2016	Martin Cox Advance Downhole Petrophysics	Y	Magnetic Susceptibility in Oil & Gas Applications
18 th Aug 2016	Field Trip to Great Orme Mine		
	No mtg /no data		
16 th Jun 2016	Ian Fairchild - Birmingham University	N	Escaping from Snowball Earth
	Field Trip /No mtg /no data		
26 th May 2016	Rob Griffiths	N	Environmental Microbiology
	Field Trip /No mtg /no data		

Summary Table of Cluster Presentations

18 th Feb 2016	Jonathan Craig - ENI	Y	Can we keep the Lights on ? Energy hydrocarbons and climate change in the 21 st Century
	Field Trip /No mtg /no data		
12 th Nov 2015	Matthew Taylor - Chariot Oil & Gas Co.	N	The life and times of a small exploration company: Attributes for success or failure in exploration portfolios
	Field Trip /No mtg /no data		
30 th Jul 2015	Field trip to Bronze Age mine, Great Orme		
	Field Trip /No mtg /no data		
29 th Apr 2015	Dr. Alistair Welbon - VNG Norway	N	Characterising and producing from reservoirs in landslides: challenges and opportunities
	Field Trip /No mtg /no data		
22 ND Jan 2015	Edoardo Fiordalisi, APT UK	N	Reservoir Characterisation of Precambrian Carbonates of the Buah Formation, Oman
	Oliver Hinds, Liverpool University	N	Enhanced Two-Dimensional Grain Size Analysis through the Use of Calibrated Digital Petrography
	Rosario Sottile, University of Sienna, Italy	N	Anthropogenic Sinkholes
18 th Dec 2014	Steve Corfield - Corfield Geoscience	Y	UK onshore Drilling Campaign of 1918/1922 to 2014
18 th Nov 2014	Steve Boldy - Lansdowne Oil & Gas	Y	The North Celtic Sea Basin - A Resurgent Prove Hydrocarbon Province
	Field Trip /No mtg /no data		
22 nd May 2014	Andrew Barnwell - BPGeo	Y	Mongolia: Frontier Exploration Potential in an Emerging Economy
17 th Apr 2014	Meshack Kagya - TPDC	N	Geochemistry and hydrocarbon exploration status in Tanzania
20 th Mar 2014	Colin More - Falklands Oil & Gas	N	Geology and Petroleum Systems of the Falkland Islands Basins
20 th Feb 2014	Dr David Hodgetts - Manchester University	N	Digital Outcrop Models of Hydrocarbon Reservoir Analogues: An example from Alderley Edge, Cheshire.
16 th Jan 2014	Field Trip to the Dolgarrog Power Station		
13 th Dec 2013	Martin Evans -Anadarko	N	A Tale of Two Shales - Implications for the Global Shale Revolution
21 st Nov 2013	Andrew Hopkins	N	Seismic Interpretation - Ten Ways to be wrong
17 th Oct 2013	Paul Pearson - Cardiff University	Y	The Cretaceous and Cenozoic stratigraphy and palaeoclimate of southern coastal Tanzania: results from a decade of fieldwork and scientific drilling
19 th Sept 2013	Richard Dixon - BP	N	Integrated petroleum systems & play fairway analysis in a complex Palaeozoic basin: Ghadames - Illizi Basin, North Africa
11 th July 2013	Field Trip to the Cliffs of the Great Orme		
	Field Trip /No mtg /no data		
18 th Apr 2013	Jenny Huggett - Petroclays	N	Green Clays: Their uses and pitfalls
21 st March 2013	Cathy Hollis Manchester University	N	Diagenetic modification of carbonate platforms from extensional basins: a step towards predictive models?
28 th Feb 2013	Ian Sharp - Statoil	N	Exploration Field Geology in the Middle East
	Field Trip /No mtg /no data		
15 th Nov 2012	Prof Richard Patrick - Manchester University	N	Britain's nuclear waste and where to stick it
4 th Oct 2012	Dr. Menno G. Dinkelman ION-GX Technology	N	Interpretation of Tectonics of Passive Margin of NE Greenland from new Reflection Data and Geological - Geophysical Constraints
	Field Trip /No mtg /no data		
15 th July 2012	Field Trip to Rhoscolyn, Anglesey		
21 st June 2012	Simon Price - BGS	N	Arabian Adventures: Geological mapping in the United Arab Emirates
17 th May 2012	Prof Kevin G Taylor Manchester University	N	Mudstones as shale gas reservoirs: multi-scale observations for improved characterisation

Summary Table of Cluster Presentations

19 th Apr 2012	Dr Richard Miller	Y	Peak Oil: Crisis, what Crisis ?
	Field Trip /No mtg /no data		
17 th Oct 2011	Paul Terry - NWSE Cymru	N	Proposed Tidal Impoundment scheme off the North Wales Coast
19 th Sept 2011	Mike Battersby	N	Innovation, Intellectual Property and Patents in the Resources Industry
20 th Jun 2011	Andrew Nunn - Dart Energy	Y	European Coal Bed Methane - Challenges and Causes for Optimism
15 th Mar 2012	Casey Hubert - Newcastle University	N	Distributions of microbes in petroleum reservoirs and at the seabed
12 th Jan 2012	Jim Harris - Fugro Robertson	N	The Plate Tectonic, Palaeogeographic and Palaeoclimatic Context for the Development of the North Atlantic Conjugate Margin Basins: Exploration Concepts and Petroleum Play Fairway Mapping
	Field Trip /No mtg /no data		
16 th May 2011	Steve Keyworth - Environmental Systems	N	Environmental Applications of Remote Sensing
18 th Apr 2011	Dave Schofield - BGS	N	Recent mapping of Northern Madagascar by the British Geological Survey
21 st Mar 2011	Andrew Barnwell - Barnwell Parker Geoscience	N	A Palinspastic Plate Reconstruction for the Southern North Atlantic, with Implications for the Development of the Basins Around the Grand Banks of Newfoundland
21 st Feb 2011	Paul Marwick - GETECH	N	The Value of Palaeoclimatology in Exploration
20 th Jan 2011	Mads Huse - Manchester University	N	Glacial History of the North Sea Basin: implications for hydrocarbon and groundwater systems
	Field Trip /No mtg /no data		
29 th Nov 2010	Barrie Wells - Petrog	N	Multi-Point Geostatistics: a Bluffer's Guide
28 th Oct 2010	Keith Richards - KRA Stratigraphics	N	Stratigraphy of the Caspian Sea
21 st Sept 2010	Stuart Councillor	N	Tidal Power
22 nd Jun 2010	Dr Bill Hirst -Shell Research Rijswijk	N	Airborne Surface Gas Flux Mapping for Hydrocarbon Exploration
5 th May 2010	Dr Jeremy Davies - BGS Retired	N	The Welsh Basin - a Window on Deep Time Climate Change
20 th Apr 2010	British Geological Survey -Cardiff Office	N	The Geology and Landscape Wales Project and current multidisciplinary geological studies in North Wales by BGS
23 rd Mar 2010	Field trip to Celtest Laboratories		
13 th Mar 2010	Dr. Jaqui Malpas - Geodiversity office - NRW	N	Field trip to Coal Measures Forest Site at Brymbo (near Wrexham) & Clwydian Hills geology
23 rd Feb 2010	Dr Richard Bevins- Keeper of Geology, Museum of Wales	N	Geological Role of the National Museum in Wales, with examples of projects in North and South Wales
17 th Dec 2009	Mads Huse - Manchester University	N	Glacial history of the North Sea Basin: Implications for hydrocarbon and groundwater systems
17 th Nov 2009	Jonathan Craig - ENI	N	Global Climate, the Dawn of Life and the World's Oldest Petroleum Systems
20 th Oct 2009	Joe Cartwright - Cardiff University	N	Hydrocarbon Migration and Sealing - Insights from 3D Seismic Data
30 th Sep 2009	Dr John Collinson	N	Carboniferous Gas Reservoirs of the Southern North Sea: Sandbody Geometry and Connectivity
20 th Aug 2009	Field trip to Parys Mountain Anglesey	N	
16 th June 2008	Ian Phillips - CO2 Deep Store	N	Climate Change - What is the Oil Industry Supposed to Do?
21 st Apr 2009	Dave Wallis RWE Renewables	N	Wind Power, with reference to Liverpool Bay and Gwynt Y Mor
	Field Trip /No mtg /no data		

Summary Table of Cluster Presentations

14 th Oct 2008	Mike Bunter - B&R Co.	N	Recent Developments in Petroleum Licensing in Iraq
15 th July 2008	Field trip to Rhoscolyn Anticline Anglesey	N	Lead by Bill Fitches
17 th June 2008	John J. Walsh University College Dublin	N	The Structure, Content and Growth of Fault Zones Within Sedimentary Sequences
15 th April 2008	Andrew Barnwell - Barnwell Parker Geoscience	N	An expedition on Mt McKinley in Pictures
18 th Mar 2008	Eryl Vaughan - WindPower Wales	N	Onshore wind power development in North Wales
27 th Feb 2008	Bill Hooley & Ian Cuthbertson	N	Parys Mountain - Past and Present
	No data		
?	?		Image Analysis in Kerogen Studies - its Biostratigraphy and Petroleum Geochemistry
